Built for the Environment

No Heating, Less Power Consumption and Simple to Use
Unlike laser printers, which require heat to fix toner on paper, inkjet printers do not need heat to operate. They are also fast and simple to use, which substantially reduces power consumption from minimal maintenance and fewer consumables.

Superior Productivity

Automatic Duplex Printing and Scanning
The printer supports automatic duplex printing of up to 15ipm for A4, reducing paper wastage. The one pass duplex ADF unit allows for quick, convenient scanning and copying of double-sided documents.

Versatile Paper Handling
Input paper capacity can be upgraded with an additional paper cassette to support up to 1,330 sheets. Papers of different sizes can be placed in the different cassettes for automatic selection. The rear tray enables the use of special media such as photo media.

USB Host Function
The WF-C579R comes with a USB port for direct printing, scanning and saving faxes using USB flash memory devices.

LCD Screen
Experience easy setup and PC-less operation with the 10.9 cm colour touch screen.

*1 Print speed (Pages Per Minute) is calculated when printed on A4 plain paper in the fastest mode. Print speed may vary depending on system configuration, print mode, document complexity, software, type of paper used and connectivity. Print speed does not include processing time on host computer.

#1 Black   #2 Colour

*2 The maximum number of printed pages per month based on the performance capabilities of the printer, including ISO rated print speeds and paper handling capabilities.

*3 Default mode in accordance with ISO7779 for MFPs.

*4 In accordance with ISO 24711/24712. Actual yields will vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink colour. A variable amount of ink remains in the cartridges after the "replace cartridge" signal. Part of the ink from the first cartridges is used for priming the printer. Ink is used for both printing and print head maintenance. All inks are used for both black and colour printing.

*5 Workforce printers will not support photo glossy paper
